THE FREE WEBSITE PROGRAM · 2026

The most expensive sound in roofing is a phone you can't answer.

- > You're 30 feet up. The phone rings in your pocket. **That ring was a \$15,000 roof.**
- > Storm-season homeowners don't leave voicemails – **the first roofer to answer usually wins.**
- > And before they call, they Google you: five stars... **and no website to show for it.**

MISSED CALL · 2:14 PM

Homeowner on Maple St — needs a roof inspection after the storm.

YOU WERE
ON A ROOF

YOUR AI RECEPTIONIST · 2:14 PM

Answered on the second ring. *"He's on a job right now — I can get you on his calendar tomorrow at 9:00."*

BOOKED · TUE 9:00 AM

Roof inspection · Maple St — on your calendar, homeowner confirmed by text.

A \$15,000
JOB, KEPT

THE CALL YOU MISS AT 2:14 — **BOOKED BY 2:15.**

Everything a roofing company needs online. *Handled.*

- ✓ **A custom website, built for you** — from your real reviews, your photos, your services. Not a template with your logo dropped on it.
- ✓ **An AI receptionist on every call, 24/7** — answers while you're on a roof, qualifies the homeowner, and books the job straight onto your calendar.
- ✓ **Unlimited edits, every month** — new photos, new services, storm updates. Text us, it's done.
- ✓ **Hosting, security and updates handled** — you never touch a dashboard, a login, or a support line.
- ✓ **Built to win the Google click** — mobile-first, fast, and wired so the "Call Now" button is never more than a thumb away.
